Twenty Four Republicans and Fourteen Progressives Vote for Bill--- Measure Is Referred to Senate Committee

WASHINGTON, Sept. 18.-The complete revision of American banking and currency methods, proposed in the Democratic currency bill, was started on its way to the statute books today. By a vote of 286 to 84 the house passed the bill in practically the same form in which it was originally proposed. Twenty-four Republicans and fourteen Progressives joined with the Democrats in voting for the bill.

With this overwhelming house majority and the endorsement of President Wilson behind it, the measure was sent over to the senate. There it was referred to the banking and currency committee before which hearings on the subject already are in progress. The committee may not be ready to report for several weeks.

The measure would eliminate the present American bank note system under which banks issue currency against government bonds and establish a currency, to be issued by twelve federal reserve banks, based on sound commercial paper, which the government assumes the responsibility of redeeming in gold or law-It would place practically every

phase of banking under the control of a federal reserve board of seven members to be appointed by the president and counsel of bankers which would have only advisory powers. The system would be administered through the reserve banks, situated in twelve geographical divisions of the country, capitalized at about the house wrote into the bill a disgold money standard fixed by law. Passed as Drawn by Glass.

Ten days of earnest consideration in the house failed to alter the bill in any material particular and it passed vintually as drawn by Representative Glass of Virginia, chairman of the house banking and currency commission, after conferences with Senator Owen, chairman of the senthe treasury department, and the ployed by the Democrats in framing in caucus. A settlement of the differences be tween the senate and the house over the proposed duties on wheat and flour was reached by the Democratic members of the tariff conference committee today. The nature of the agreement was not made public but it is understood that the house members finally accepted the senate amendment almost without change.

Wheat and Flour on Free List. Under this provision both wheat and flour would go on the free list and a duty of ten cents per bushel would be assessed against wheat imported from a country levying a duty on American wheat and a duty of 45 cents per barrel against flour imported under like conditions. The house had put a straight duty of ten cents per bushel on wheat and had free listed flour with a countervail-

ing duty of ten per cent ad valorem. Today's agreement established a precedent which it is understood will be followed in other cases by imposing countervailing duties. is expected that the conference will approve countervailing duty of ten per cent on potatoes, which both that the countervailing duty on wood stricken out by the senate may also

Advices From Germany That Slayer and Dentist Are Cousins Causes Little Surprise-Schmidt Insists That He Is Not an Imposter.

NEW YORK, Sept. 18 .- While steps were being taken today to have a jury pass upon the sanity of Father Hans Schmidt, evidence was piling up linking closer the lives of the slayer of Anna Aumuller and his alleged counterfeiting partner, Dr. Ernest Muret. Muret was the central figure in the day's developments in the case. The priest, whose right to the name he claims and to the cloth he wore is being called in question, grew morose in his cell and talked little.

The psudo-dentist, who appears from information the authorities already have acquired, to have practiced medicine under other names in Chicago, England and on the continent has been thought by the police almost from the beginning to e some blood relation to Schmidt. Thus the advices tonight from Aschaffenburg. Germany, Schmidt's birthplace that Muret is now believed to be the murderer's cousin, Adolph Mueller, caused little surprise among the investigators.

Had Close Knowledge of Operations. This development, bringing with it the statement that the cousins were close friends and that Mueller long ago disappeared, was perhaps the most important of any along the line of inquiry which seeks to establish a connection of a long standing between the two men. It also came out, however through the dis covery of an engraver who made conper plates for Schmidt, that Muret, as he now calls himself, seemingly had far closer knowledge than has at any time admitted of Schmidt's companied Schmidt to the engraver's

shop when the plate were secured. As for Schmidt himself, the many as a woman candidate for the office aliases he used led inspector Faurot to suspect that the clerical prisoner Muret, was considered by the inspect or worth while following.

His lawyer today began laying the ground work for an insanity defense of his client. He let the district attorney know that he purposed asking a court inquiry into Schmidt's This would necessitate the appointment of a commission or the ringing of the confessed murder efore a layman's jury.

Another line of defense, however seems likely to be reserted to in a secondary way. This is an asserted absence o proof of Anna Aumuller's death. Parts of the girl's body, cut up by Schmidt and thrown into the Hudson have been recovered but the head is still missing. It is this conto keep up a persistent search for the head of the victim. A diver has been engaged to go over every foot of the river bottom in the vicinity where vesterday fishermen dragged FOR MAYOR'S FUNERAL sofe object close to the surface and then lost it, only a strand of human hair remaining on the hook.

Jury Returns Verdict. At the conclusion of an inquest into Anna Aumuller's death ducted in Jersey City tonight the torso found in the Hudson river on Sept. 5 and all other exhibits in the case were ordered turned over to the New York authorities. The jury brought in the verdict. "We find that Anna Aumuller came to her death on September 2, last, in her apartment on the premises at 68 Bradhurst avenue, New York City, at the hands of Hans Schmidt.

Pastors Who Will Supply Them in country have learned from past ex-

The annual conference of the M P. church has been held at Ohio, Ill. and some changes have been made in the pastors.

Rev. J. G. Reed, who has accept ably supplied the Concord circuit for some years back, has been transferred to the North Illinois conference and will go to Long Point, nine miles south of Streator. Mr. Reed has done good work on this circuit and his successor will have to move lively to maintain the pace of his predecessor. The circuit comprises the church at Concord, one at Grace Chapel or Crackers Bend, and one at It was the people against Union Chapel. He has also been

> ed to Bluffs, where he has been laboring successfully a number of years. A new church is one of the enterprises in which Mr. Gen is engaged and it is expected to be finished before the spring season.

> Rev. Frederic Baylis will return to Chapin, where he has been for several years, serving quite acceptably. The church and the pastor are both fortunate in this arrangement.

Rev W. H. Lewis will go to Kasbeer station and Rev. R. E. Fox to Clinton circuit and Rev. J. L. McKay will be assigned work by the president of the conference.

The matter of union of the Meth-

odist Protestant denomination with the United Brethren has been under consideration and the Northern Illinois conference voted unanimously in favor of it.

THICK, GLOSSY HAIR

FREE FROM DANDRUFF

Try It! Hair Gets Soft, Fluffy and Luxuriant at Once-No More Falling Hair.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have danddruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls

out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best invest

ment you ever made. We sincerely believe, regardless of everything else advertised, that is you desire soft, lustrous, beautiful hair and lots of it-no dandruffno itching scalp and no more falling hair-you must use Knowlton's Danderine. If eventually-why not now?

#### SOME OFF-SIDE CHUTES.

The drafting of "King" Cole cost

Frank Farrell the "measly" sum of NEW YORK DEFEATS WHITE \$2,500. And thereby hangs a sweet little tale: A few months ago Garry Herrmann opened negotiations with Columbus for the king's services. The Cincinnati owner offered the Senator's manager the juicy price of Scoring Four Runs and Driving \$12,000 cash for immediate delivery. Russell Off the Mound—Maisel The offer was turned down in the hope that Cole's well-known reputation for unreliability as to habits and insubordination would debar him New York, Sept. 18 .- New York from the drafting process. > The tail-enders, Indianapolis, have dropped the Brewers into second place in the American association race, winning a double header. Minneapolis now is in the lead by a hair, with good prospects of widening the breech before the bell-tap.

Joe Lake went the entire route in an eighteen inninng tie with Columbus at Minneapolis on Wednesday. The Senators garnered but 10 hits off him in the game, while Minneapolis culled 14 from Cook and Ferry, the visiting pitchers. Columbus scored one run in the first session, and Minneapolis sent one over in the sixth, the only ones made. Lake issued but one pass; the Columbus hurlers presented eleven free tickets.

Ritchie's forfeit is in the form of a check, payment upon which he stop ped immediately after he fluked hi match with the British champion. This Ritchie person is the same who is howling because the legal boxing commissions in several states have announced that his presence is not desired at any of the clubs within their jurisdiction.

Rain throughout the west the past few days has set back the work of the college football teams. Work, however, has been going on indoors, the gridiron candidates practicing the passing of the pigskin and going through the formations.

World's records are daily being shattered at the New Jersey State Riffle association tournament at Seagirt. The 1,200 yard range has been negotiated by Capt. W. H. Richard of Ohio, who scored 74 out of 7 bullseyes. District of Columbia riflemen have set a new world's record for the 200 yard team range at seven inch bulls eyes, totalling 395 out of a possible 400, an average, of 49% per man.

Old-time followers of the running turf on Thursday morning must have been brought back to the "good old days" when they glimmed the re sults at Lexington, Ky., the day previous. In one race James Dockery named for a former congressman from Missouri, won the handicap with only 107 pounds up at a fair price in the mutuals. Old Coppertown was second, with another by gone day favorite, Effendi, third The time ,too, was fast for these old platers, 1:46 2-5 for the 1 1-16 miles In the one mile race, last on the card, another old favorite, Winning Witch, showed the way under the wire, with 110 pounds up, but at a short price.

The Americans competing at the Brookline, Mass., open golf tourna ment have not yet reached their stride. England thus far is in the lead in the qualifying rounds. Champion McDermott, Tom McNamara, Alec Campbell and others have thus far been weak in putting greens.

"King" Cole, upon his arrival in Chicago en his way to Columbus Ohio, stopped long enough to engage in a fanning bee with the war scribes. He denies the story from St. Paul, crediting him with fuming when he was informed Chance had secured him by way of draft in Cincinnati. He says Frank is the greatest leader of them all, and that he is going to win (?) the pennant for the Peerless One next year. Cole always was rather chesty as to his ability, and judging from his sojourn in the bush, he has lost not one bit

MOVED BY NEWS OF EARLY THRESHING IN CANADA.

Threshing North of the Boundary Line Will be Completed Much Earlier Than Usual-Corn Develops Weakness After Strong Start.

(By Associated Press)

Chicago, Sept. 18 .- Wheat owners here, who have been troubled by the outlook for heavy shipments duty free to this country from Canada, unloaded today with increasing vigor moved by news that threshing north of the international boundary was being completed much earlier than in former years.

The market closed weak, 1/2c to %c under last night. Corn lost 1/2 to %c net and oats % @ %c to %c. In prolic decline to 121/2c advance.

Only at the outset was there any show of strength in wheat. Higher cables and light receipts northwest formed the reason but the trade soon decided that there was more than an offset in the fact that the Italian crop instead of being short would surpass the highest record of recent

Corn developed weakness after a strong start. Liverpool reported a regent that was being purchased there for the United States but the bullish effect of this news wore away because of uneasiness regarding continued liberal arrivals in Chicago. 25c There was much profit-taking on the ingly bearish crop estimate from a well known expert. Oats followed corn. Eastern call was slim and there was fairly good selling on

speculative account. Provisions in the main were higher with hogs. September pork was an exception, making a freakish decline of 35c without finding any ready takers.

Today at 3:30 Dr. Rees will address the children and young people of the city in an illustrated lecture. His subject will be "Gardens." Church members are far too easy church and from Christ when they should be saved and might be if the people of the Lord were properly aroused.

All should be more earnest. That was the great secret of William Sunday's power. He was tremendously in earnest and showed it in all he said. Interest will beget interest and indifference will bring about indifference. Not only do church members need awakening but thousands outside of the church need the same thing Satan rocks people to sleep in the cradle of future probation, which is a dangerous doctrine. The time in Jacksonville for activity is right now; not next month or next year, but tonight.

If there is to be an awakening in this place it must through christians first getting right with God and then getting others right. Then if we are to have people converted in these meetings we want wide awake, lively churches to receive them and keep them warm.

There is missionary work to do: the gospel is to be sent to those who sit in darkness. We must awake out of sleep and get busy if we are to do our part in that great work. Do not let us sit idly by while there is so much work to be done wake out of sleep, be up and doing.

CYPRESS VINE MAKES PRETTY PORCH EFFECT

What is probably the most negatiful porch in the city owes its appearance to a clever arangement of geraniums and the artful training of an abundant growth of cypress vine, which twines around the white do ric columns in a manner very attractive. The porch, on the residence of J. I. Graham of 219 South Prairie street, has been the subject of remark ov passers by all summer and Mr. Graham has had numerous requests for seeds of the vine.
